I tried asking this question here and in the Snags group but was not able to get any response. So what is going wrong and how can i generate the xml file without using SN Write tool? A: As of now snags is only available in SnagIt 9.5.1 for Windows only. It is available in the Mac version but won't be compatible with all Macs. The SnagIt team is also not making the Mac version available for SnagIt Pro customers. Mac customers who are so inclined may, however, be able to activate the SnagIt Pro version on their Windows machines and then save the image. Molly's Love Molly's Love is an American reality television show that aired on the Syfy cable television channel. It is a companion series to the relationship reality show, Showmance. The show premiered on August 20, 2011. The series is filmed in Phoenix, Arizona and Orange County, California, U.S. In September 2011, the station announced that it was canceling the series after one season. History Premise The show revolves around the affairs of real-life couple, Molly and Frank. However, they are separated by distance and Molly has no idea about their relationship with each other. At the beginning of each episode the main characters are interviewed about themselves and their relationship.
