## Sygyic Navigation 12.2.1 WinCE

Sygyic's trail and turn-by-turn function is fully embedded in the navigation software. Sygyic's intelligent route calculation algorithm calculates the optimal route and quickly calculates the quickest route when an address is typed. This way you will be able to quickly move from one place to another without fiddling with the map. You will be able to exchange all the map data between the servers, access your waypoints and routes, create new routes and more. The maps are always up to date thanks to the National Geodetic Survey (NGS) data with no more mapping and navigation issues. Sygyic Navigation 12 has a very elegant, minimalist interface that allows you to make the most of the characteristics of your device. Navigation is always useful and intuitive. When you drive, you can easily reach your destination thanks to the fact that Sygyic will always calculate the quickest route. Whether you are on a PC or in your smart device, the Map Viewer on Sygyic Navigator 12 will allow you to access your course and follow your route. In addition you will be able to reset your course as often as you want and you can use all of Sygyic's features in the Map Viewer such as the Waypoint List, the Waypoint Activity List and the Marker List. If you ever get lost, Sygyic Navigator 12 will show you how to get back to your destination. All the necessary information will be shown at your fingertips so you don't even need to look at the screen. You will be able to find all the places you have already visited and of course you will be able to easily add a new destination.

Download the free Sygy Maps mobile app to have your personal travel guide always with you. Any changes you make to your trip are always synced to all your devices. Sygy Maps mobile app has worldwide offline maps, allowing you to pre-download maps and destination data and use the app offline. Available for Android, iPhone & iPad. Don't have a smartphone You can also get your itinerary in a PDF file and print it out. For the experts in some other industries, Sygy Navigator 12 is the perfect tool for their specific requirements. Sygy Navigator 12 is always up to date and will be available to everyone thanks to the new technology developed by Sygy. Its functions are very intuitive and it has a very good user experience. Sygy's route calculation is based on the principle that we are searching for the shortest routes while travelling and not routes that are the most aesthetically pleasing or difficult. The software is able to work offline thanks to a very high speed satellite navigation system and the only data you will have to transmit is the shortest route calculation. You will be able to store your route data in the form of GPX and CSV files, share your route data with your friends, colleagues or family.
