

# ImageEn v8.1.1 with IEVision v4.5.0.2: A Powerful Image Processing Library for Delphi and C++ Builder

If you are looking for a fast, easy and reliable way to handle images in your Delphi or C++ Builder applications, you should check out ImageEn v8.1.1 with IEVision v4.5.0.2. ImageEn is a comprehensive image processing library that offers a wide range of features, such as loading and saving images in various formats, displaying and editing images, applying filters and effects, creating thumbnails and previews, printing and scanning images, capturing video frames, and much more. IEVision is an optional extension for ImageEn that adds advanced computer vision capabilities, such as face detection and recognition, barcode reading and writing, optical character recognition (OCR), object detection and tracking, image stitching and panorama creation, and more. With ImageEn v8.1.1 with IEVision v4.5.0.2, you can benefit from the latest improvements and bug fixes of both libraries, as well as some new features, such as:

- Support for Delphi 11 Alexandria and C++ Builder 11 Alexandria
- Improved performance and memory usage of image processing functions
- New filters and effects, such as adaptive thresholding, color quantization, edge detection, embossing, etc.
- New methods for image resizing, cropping, rotating, flipping, skewing, etc.
- New components for image viewing and editing, such as TIEImageEnViewEx and TIEImageEnLayerMViewEx
- New properties and events for image manipulation and interaction
- New functions for face detection and recognition, such as IEVision\_FaceDetectEx and IEVision\_FaceRecognizeEx
- New functions for barcode reading and writing, such as IEVision\_BarcodeReadEx and IEVision\_BarcodeWriteEx
- New functions for OCR, such as IEVision\_OCRRReadTextEx and IEVision\_OCRRGetTextLayoutEx
- New functions for object detection and tracking, such as IEVision\_ObjectDetectEx and IEVision\_ObjectTrackEx
- New functions for image stitching and panorama creation, such as IEVision\_ImageStitchEx and IEVision\_PanoramaCreateEx

If you want to learn more about ImageEn v8.1.1 with IEVision v4.5.0.2, you can visit the official website at <https://www.imageen.com/>, where you can find detailed documentation, tutorials, demos, samples, forums, and more. You can also download a free trial version of ImageEn v8.1.1 with IEVision v4.5.0.2 from <https://www.imageen.com/download/>, where you can test all the features of the library without any limitations. If you are satisfied with the trial version and want to purchase a license of ImageEn v8.1.1 with IEVision v4.5.0.2, you can do so from <https://www.imageen.com/order/>, where you can choose from different license options depending on your needs. Don't miss this opportunity to enhance your Delphi or C++ Builder applications with the power of ImageEn v8.1.1 with IEVision v4.5.0.2!
