SB Admin 2 is a free, open source, Bootstrap 4 based admin theme perfect for quickly creatingdashboards and web applications. It's modern design style with subtle shadows and a card-basedlayout could be described as flat material, and is inspired by the principles of material designalong with a simple, attractive color system. Freeware programs **can be downloaded used free of charge and without any time limitations**. Freeware products can be used free of charge for both personal and professional (commercial use). Open Source software is software with source code that anyone can inspect, modify or enhance. Programs released under this license can be used at no cost for both personal and commercial purposes. There are many different open source licenses but they all must comply with the Open Source Definition - in brief: the **software can be freely used, modified and shared**. This license is commonly used for video games and it **allows users to download and play the game for free**. Basically, a product is offered Free to Play (Freemium) and the user can decide if he wants to pay the money (Premium) for additional features, services, virtual or physical goods that expand the functionality of the game. In some cases, ads may be show to the users. Demo programs have a **limited functionality** for free, but charge for an advanced set of features or for the removal of advertisements from the program's interfaces. In some cases, all the functionality is disabled until the license is purchased. Demos are usually not time-limited (like Trial software) but the functionality is limited. For a classy-looking admin panel template, Gentella is the one to ever consider in mind. Love this template featuring many elements interactively. It is free in three variations of the dashboard. The hover effects are impressive as these show you the accurate data of the graphs. Adjust the navigation menu if you feel like it is obtrusive. The left sidebar will introduce you to the options of the footer and navigation option. An option for full-view, log out option, and settings are also available. There is also a place to include a welcome message and user profile picture in the sidebar and top bar. Nalika is a good way to go when you want a free dark-themed admin panel template. With its huge icons and text features, users like you will find it easy to interact with the dashboard. Navigate through it with possible options on the left part of the sidebar. Be in control using profile controls on the right part of the sidebar. Highlight activity status and know more about the notifications with lightbox effects. A professional-themed dashboard template, Startmin, is also free. It is eye-catching because of its trendy web colors and elements. It also gives you a neat and nice layout and other essential dashboard elements. Its clean white space makes the web elements neat to look at. Ataglance is an error-free design automation platform (ASV) enabling engineers to design faster and therefore ahead of industry competitors. Ataglance enables engineers to focus on design quality and implementation instead of worrying about trapped steps and design issues. Its design and execution capabilities enable engineers to efficiently manage a project from a design specification through to the release of an ASIC.
