What is Khaki Shadows about?

The book is divided into 11 chapters, each covering a different aspect of Pakistan's political and military history. Some of the topics include:

- The birth of Pakistan as a result of a political, legal and constitutional struggle for independence, and the challenges faced by its founding father, Muhammad Ali Jinnah.
- The follies and failures of the wars with India in 1948, 1965, and 1971, and the causes and consequences of the secession of East Pakistan (now Bangladesh).
- The rise and fall of Zulfikar Ali Bhutto, the first civilian leader to challenge the military's dominance, and his execution by General Zia-ul-Haq, who imposed a harsh Islamic dictatorship.
- The role of the Mohajir Qaumi Movement (MQM), a political party representing the Urdu-speaking migrants from India, in the ethnic violence and turmoil in Karachi.
- The role of the judiciary in upholding or subverting the constitution and democracy, and its clashes with the military and civilian rulers.
- The lure of power and corruption that plagued both the military and civilian leaders, and their attempts to manipulate public opinion and elections.
- The foreign relations of Pakistan with its neighbors (India, Afghanistan, Iran), allies (China, United States), and rivals (Soviet Union).
