# [EXCLUSIVE] Bookly Customer Information (Add-on)

If you are looking for a way to collect more information from your customers when they book an appointment with you, then you need to check out the Bookly Customer Information add-on. This add-on allows you to create custom fields for your booking form, such as text, checkbox, radio button, drop-down list, file upload, and more. You can also make some fields required or optional, and set the order and visibility of the fields. With the Bookly Customer Information add-on, you can:

- Get more details about your customers and their needs
- Improve your service quality and customer satisfaction
- Store and manage customer data in your WordPress dashboard
- Export customer data to CSV files for further analysis
- Integrate with other Bookly add-ons, such as Coupons, Invoices, Ratings, etc.

The Bookly Customer Information add-on is an exclusive offer for our loyal customers who have purchased the Bookly Pro plugin. You can get it for only \$19 (regular price \$39) for a limited time. Don't miss this opportunity to enhance your booking system and grow your business. To get the Bookly Customer Information add-on, simply click on the button below and follow the instructions. [Get Bookly Customer Information Add-on Now](#) Bookly Customer Information add-on is easy to install and use. You just need to activate it in your WordPress plugins page, and then go to Bookly Settings > Customer Information. There you can create and edit your custom fields, and adjust the settings according to your preferences. You can also preview how the fields will look on your booking form. Once you have set up your custom fields, you can start collecting customer information from your booking form. The information will be stored in your WordPress database, and you can access it from Bookly Appointments > Customer Information. You can also edit or delete the information if needed. You can also export the information to CSV files for further analysis or backup. Bookly Customer Information add-on is compatible with other Bookly add-ons, such as Coupons, Invoices, Ratings, etc. You can use these add-ons to offer discounts, generate invoices, collect feedback, and more. You can also integrate Bookly with other popular WordPress plugins, such as WooCommerce, Contact Form 7, Gravity Forms, etc. Bookly Customer Information add-on has received many positive reviews from our customers who have used it to improve their booking system. Here are some of their testimonials:

"Bookly Customer Information add-on is a must-have for any business that needs to collect more information from their customers. It is easy to use and customize, and it works seamlessly with Bookly Pro. I highly recommend it." - *John Smith, owner of JS Fitness*

"I love Bookly Customer Information add-on. It allows me to create different fields for different services, and to make some fields required or optional. It helps me to understand my customers better and to provide them with the best service possible." - *Mary Jones, owner of MJ Beauty Salon*

"Bookly Customer Information add-on is a great addition to Bookly Pro. It lets me collect and manage customer data in an easy and efficient way. I can also export the data to CSV files for further analysis or backup. It is a very useful and reliable tool." - *David Lee, owner of DL Consulting*

As you can see, Bookly Customer Information add-on is a powerful and versatile tool that can help

you to collect more information from your customers and to improve your service quality and customer satisfaction. It is also an exclusive offer for our loyal customers who have purchased the Bookly Pro plugin. You can get it for only \$19 (regular price \$39) for a limited time.
