What is Slither io and Why You Should Try It

Slither io is a multiplayer online game that lets you control a snake that consumes multi-colored pellets to grow in size. The objective of the game is to become the longest snake on the server by outmaneuvering other players and strategically cutting them off. When another snake's head collides with your body, they explode and leave behind a trail of orbs that you can eat to grow even bigger. But be careful, because if your head touches another snake's body, you will explode too.

The Basics of Slither io Gameplay

Slither io's gameplay is simple and intuitive. You can control your snake's direction with your mouse or trackpad on your computer, or with your finger on your phone or tablet. You can also use your boost to speed up your snake by clicking and holding the left mouse button, or double-tapping the screen. Boosting helps you catch up with other snakes, escape from danger, or surprise your enemies. But be aware that boosting consumes some of your mass, making your snake shorter as you use it.
