# How to Download Sakura School Simulator on Windows

Do you love playing simulation games on your mobile device? Do you want to experience a crazy and fun school life in Japan? If you answered yes, then you should try **Sakura School Simulator**, a popular Android game that lets you do all that and more. But what if you want to play this game on a bigger screen, with better graphics and performance, and with more comfortable controls? Well, you can do that too, by downloading Sakura School Simulator on your Windows PC. In this article, we will show you how to do that in two easy ways, using BlueStacks and Amazon Appstore. Let's get started!

## What is Sakura School Simulator?

### A brief introduction to the game and its features

Sakura School Simulator is a simulation game developed by Garusoft Development Inc. that lets you explore a small open world town in Japan, where you can attend school, make friends, join clubs, fight enemies, fall in love, and much more. The game has a lot of features that make it fun and unique, such as:

- You can control and change four players in the same stage (two are valid after watching ads).
- You can choose different avatar clothes and accessories.
- You can talk to students and other people and choose different sentences for talking.
- You can make friends and lovers through simulations.
- You can attend school lessons, buy items, eat in sushi bars, earn money, drive cars, ride attractions, etc.
- You can borrow weapons from the Yakuza office and go on a rampage if you like.
- You can use jetpacks, shrink rays, bazookas, and other crazy items.
- You can encounter Big Alice, a giant girl who is destroying the town.

The game has no end and no goals. You can create your own situations and scenarios as you like, and enjoy the game at your own pace.

### The benefits of playing the game on PC

While Sakura School Simulator is designed for mobile devices, you can also play it on your Windows

PC using an emulator or an app store. There are many benefits of doing so, such as:

- You can enjoy the game on a larger screen with higher resolution and better graphics.
- You can play the game with faster speed and smoother performance without lag or crashes.
- You can use your mouse, keyboard, or gamepad to control the game with more accuracy and comfort.
- You can sync your progress and game library across devices with a single sign-in to your Google or Amazon account.
- You can earn rewards as you play with Google Play Points or Amazon Coins.
