Eltima Swf And Flv Toolbox 4 [UPDATED]

Eltima SWF and FLV Toolbox 4: A Powerful and Versatile Flash Converter

If you are looking for a software that can convert SWF, FLV and EXE files to various formats, such as video, images, screensavers and more, then you should check out Eltima SWF and FLV Toolbox 4. This software is designed to help you easily and quickly convert your Flash files to the desired output with high quality and customization options.

Eltima SWF and FLV Toolbox 4 has a user-friendly interface that allows you to import files by using the file browser or drag and drop method. You can also batch convert multiple files at once. You can choose from different output formats, such as AVI, GIF, JPEG, PNG, SCR, EXE and more. You can also adjust various settings for each output format, such as codec, frame rate, quality, crop, resize, grayscale and more.

One of the features that makes Eltima SWF and FLV Toolbox 4 stand out is the ability to convert Flash files to screensavers. You can edit the title, settings image, homepage link and other parameters of your screensaver. You can also enable auto play or loop mode, adjust the controls opacity, select the background color and remove sound for your SWF files.

Eltima SWF and FLV Toolbox 4 also supports converting FLV files with AVC/H.264 video codec and interactive type of conversion of SWF/EXE files into images. You can also decompile selected SWF file directly from the software with the help of Flash Decompiler. The software has a multilingual interface that automatically switches depending on the language set in Windows Regional and Language Options.

Eltima SWF and FLV Toolbox 4 is a powerful and versatile Flash converter that can help you transform your Flash files into various formats with ease and efficiency. You can download a free trial version from the official website[^1^] or buy the full version for â[]¬29.95[^2^].

If you want to learn more about Eltima SWF and FLV Toolbox 4, you can visit the online user documentation that provides detailed instructions and screenshots for each conversion type. You can also contact the support team if you have any questions or issues with the software. Eltima SWF and FLV Toolbox 4 is compatible with Windows 2000, XP, Vista, 7 and 2003.

Eltima SWF and FLV Toolbox 4 is a great solution for anyone who wants to convert Flash files to various formats with ease and flexibility. Whether you want to create a screensaver from your favorite SWF file, convert a FLV video to AVI format, or extract images from a SWF/EXE file, Eltima SWF and FLV Toolbox 4 can help you achieve your goals. Download it today and see for yourself!
