# How to Get Free HPE iLO Advanced License Keys for Your HP Servers

If you are using HP servers, you might be familiar with the iLO (Integrated Lights-Out) feature, which allows you to remotely manage and monitor your server hardware. iLO comes in different versions and license types, such as iLO Standard, iLO Essentials, and iLO Advanced. The iLO Advanced license offers more features and capabilities, such as remote console, virtual media, directory integration, power management, and more.

However, the iLO Advanced license is not free and usually requires a purchase or subscription. But did you know that you can get free iLO Advanced license keys for your HP servers until the end of 2021? Yes, you read that right. HPE is offering free iLO Advanced license keys for all HPE customers and partners in 2020 and 2021 as a way to help them manage their servers during the COVID-19 pandemic.

In this article, we will show you how to get and activate your free iLO Advanced license keys for your HP servers.

## Step 1: Register at the HPE iLO Advanced Trial License page

The first step is to register at the [HPE iLO Advanced Trial License page](HPE iLO Advanced Trial License page). You will need to provide some basic information, such as your name, email address, company name, country, and server model. You will also need to agree to the terms and conditions of the trial license.

Upon completion of the registration, you will receive a welcome email with assets and guidance information. You will also be prompted to download the PDF containing the license key. Once downloaded, you will be able to use the HPE iLO Advanced License through December 31, 2021.

# Step 2: Activate your free iLO Advanced license key on your HP server

The next step is to activate your free iLO Advanced license key on your HP server. You will need to access the iLO web interface of your server using a web browser. The default URL is https://. You will need to enter the default username and password, which are usually "Administrator" and a random string printed on a sticker on the server.

Once logged in, go to the Administration tab and select Licensing. Then enter your free iLO Advanced license key in the Activation Key field and click Install. You should see a message confirming that the license key has been installed successfully.

Now you can enjoy the benefits of iLO Advanced features on your HP server for free until the end of 2021.

# Conclusion

HPE iLO Advanced is a powerful tool that can help you manage and troubleshoot your HP servers remotely. It offers features such as remote console, virtual media, directory integration, power management, and more. Normally, you would need to pay for an iLO Advanced license or subscription to use these features. But thanks to HPE's generous offer, you can get free iLO Advanced license keys for your HP servers until the end of 2021.

All you need to do is register at the HPE iLO Advanced Trial License page and activate your free license key on your HP server. This is a great opportunity to try out iLO Advanced features and see how they can improve your server management experience.
