Paltalk Messenger 11.8 Build 675 Download _TOP_

Paltalk Messenger 11.8 Build 675 Download: A Review

If you are looking for a free video chat, instant messaging, and chat room service that allows you to communicate with people from all over the world, you might want to check out Paltalk Messenger. Paltalk Messenger is a popular and versatile application that lets you connect with strangers and friends through video, voice, or text chat. In this article, we will review Paltalk Messenger 11.8 Build 675, the latest version of the software, and show you how to download and install it on your PC. We will also discuss the features, benefits, and alternatives of Paltalk Messenger.

What is Paltalk Messenger?

Paltalk Messenger is a proprietary video group chat service that was launched in 1998 by A.V.M. Software Inc. It has over 4 million registered users and offers thousands of public and private chat rooms in various categories and languages. You can also create your own chat room and invite other users to join. Paltalk Messenger supports video chat with up to 10 people at once, as well as voice chat and text chat. You can also send virtual gifts and stickers to other users, play games, share files, watch videos, listen to music, and more. Paltalk Messenger is available for Windows, Mac, iOS, Android, and Kindle Fire devices.

Features of Paltalk Messenger

Paltalk Messenger has a plethora of features that cater to the diverse communication needs of its users. Here are some of the main features of Paltalk Messenger:

Video chat with strangers and friends

Paltalk Messenger allows you to start a video chat with anyone on any device, whether they are online or offline. You can also join live streams hosted by other users or broadcast your own live stream to the world. You can use video filters and effects to enhance your appearance and express yourself better. You can also use live captions and translation to communicate with people who speak different languages.

Join thousands of chat rooms

Paltalk Messenger has over 5,000 public chat rooms that you can browse freely, with no limitations. You can find chat rooms based on topics, interests, regions, languages, or keywords. You can also create your own chat room and customize it with your own rules, moderators, banners, etc. You can invite other users to join your chat room or make it private if you prefer.

Send gifts and stickers

Paltalk Messenger lets you send virtual gifts and stickers to other users to show your appreciation, admiration, or affection. You can choose from a wide range of gifts and stickers that suit different occasions and moods. You can also earn credits by receiving gifts from other users or by completing tasks and surveys.

Customize your profile and settings

Paltalk Messenger allows you to create your own profile and display name that reflect your

personality and preferences. You can upload your own photo or avatar, write a bio, add your interests, etc. You can also adjust your settings for privacy, notifications, audio, video, etc.

How to download and install Paltalk Messenger 11.8 Build 675?

If you want to download and install Paltalk Messenger 11.8 Build 675 on your PC, you can follow these steps:

Download link and system requirements

You can download Paltalk Messenger 11.8 Build 675 from the official website or from other trusted sources . The file size is about 57 MB and the file name is paltalk.exe. Before you download, make sure your PC meets the minimum system requirements for Paltalk Messenger, which are:

- Windows XP, Vista, 7, 8, 8.1, or 10
- 1 GHz processor or faster
- 512 MB of RAM or more
- 100 MB of free disk space or more

Installation steps and screenshots

Once you have downloaded the file, you can install Paltalk Messenger by following these steps:

1. Double-click on the paltalk.exe file to launch the installer.
2. Select your preferred language and click Next.
3. Read and accept the license agreement and click Next.
4. Choose the destination folder for Paltalk Messenger and click Next.
5. Select the components you want to install and click Next.
6. Wait for the installation to complete and click Finish.
7. Paltalk Messenger will launch automatically and prompt you to sign in or create an account.

Here are some screenshots of the installation process:

What are the benefits of Paltalk Messenger 11.8 Build 675?

Paltalk Messenger 11.8 Build 675 is the latest version of the software that was released in August 2016. It has some improvements and fixes over the previous versions, such as:

Improved video quality and performance

Paltalk Messenger 11.8 Build 675 has enhanced the video quality and performance of the video chat and live stream features. The video resolution has been increased to 720p HD, and the frame rate has been optimized to reduce lag and stuttering. The video chat also supports up to 10 people at once, making it ideal for group conversations.

Fixed ignore option and audio tuning

Paltalk Messenger 11.8 Build 675 has fixed the ignore option that was not working properly in some cases. The ignore option allows you to block or unblock other users from contacting you or seeing your messages. The audio tuning feature has also been restored, allowing you to adjust your microphone and speaker settings for optimal sound quality.

Added microphone test and reliability improvements

Paltalk Messenger 11.8 Build 675 has added a microphone test feature that lets you check your microphone level and quality before joining a video chat or live stream. The microphone test has four steps that guide you through the process of setting up your microphone. The new version also has reliability improvements in the connect logic and authentication, as well as multiple crash fixes and stability enhancements.

What are the alternatives to Paltalk Messenger?

Paltalk Messenger is not the only video chat, instant messaging, and chat room service available online. There are many alternatives that offer similar or different features and functionalities. Some of the best alternatives to Paltalk Messenger are:

Skype

Skype is one of the most popular and widely used video calling apps in the world. It allows you to make free video and voice calls, send instant messages, share files, and more with anyone on any device. Skype also has group video calls with up to 50 people, screen sharing, live subtitles, Skype bots, Skype numbers, Skype credits, Skype for Business, etc.

WhatsApp

WhatsApp is a free messaging app that uses your phone's internet connection to send and receive messages, calls, photos, videos, documents, voice notes, etc. WhatsApp also has end-to-end encryption, group chats with up to 256 people, WhatsApp Web, WhatsApp Business,

WhatsApp Status, WhatsApp Web, WhatsApp Payments, etc.

Wire

Wire is a secure and private messaging app that uses end-to-end encryption for all communications, including voice, video, text, and file sharing. Wire also has group chats with up to 128 people, self-destructing messages, timed messages, guest rooms, voice filters, etc. Wire is open source and compliant with GDPR and other data protection laws.

Zulip

Zulip is a powerful and productive chat app that organizes conversations into topics and streams. Zulip also has markdown formatting, code syntax highlighting, emoji reactions, message editing, search, integrations, bots, etc. Zulip is open source and can be self-hosted or hosted by Zulip Cloud.

Trillian

Trillian is a multiprotocol instant messaging client that supports various chat networks, such as AIM, ICQ, Yahoo Messenger, Google Talk, Facebook Messenger, Skype, etc. Trillian also has group chats,

file transfers, message history, themes, emoticons, etc. Trillian is available for Windows, Mac, Linux, iOS, Android, and web browsers.

Conclusion

Paltalk Messenger 11.8 Build 675 is a free and versatile video chat, instant messaging, and chat room service that lets you communicate with people from all over the world. It has many features that make it fun and easy to use, such as video chat with strangers and friends, thousands of chat rooms to join or create, gifts and stickers to send and receive, profile and settings customization, etc. It also has some improvements and fixes over the previous versions, such as improved video quality and performance, fixed ignore option and audio tuning, added microphone test and reliability improvements. However, Paltalk Messenger is not the only option for online communication. There are many alternatives that offer similar or different features and functionalities. Some of the best alternatives are Skype, WhatsApp, Wire, Zulip, and Trillian.

We hope this article has helped you learn more about Paltalk Messenger 11.8 Build 675 and how to download and install it on your PC. If you have any questions or feedback about Paltalk Messenger or this article, please feel free to leave a comment below.

FAQs

- **Is Paltalk Messenger safe to use?**

  Paltalk Messenger is generally safe to use as long as you follow some basic precautions. For example, you should not share your personal information or passwords with anyone on Paltalk Messenger, you should not click on suspicious links or download unknown files from other users, you should not join chat rooms that promote illegal or harmful activities, you should report any abusive or inappropriate behavior to the Paltalk staff or moderators, you should use antivirus software and firewall on your PC, etc.

- **How do I uninstall Paltalk Messenger from my PC?**

  If you want to uninstall Paltalk Messenger from your PC, you can follow these steps:

  1. Close Paltalk Messenger if it is running.
  2. Go to the Control Panel on your PC and select Programs and Features.
  3. Find Paltalk Messenger in the list of programs and click Uninstall.
  4. Follow the instructions on the screen to complete the uninstallation process.
  5. Delete any leftover files or folders related to Paltalk Messenger from your PC.

- **How do I update Paltalk Messenger to the latest version?**

  If you want to update Paltalk Messenger to the latest version, you can follow these steps:

  1. Open Paltalk Messenger on your PC.
  2. Click on the Help menu at the top of the window and select Check for Updates.
  3. If there is a new version available, you will see a message informing you about it.
  4. Click on Download Now to download the new version.
  5. Once the download is complete, click on Install Now to install the new version.
  6. Restart Paltalk Messenger to enjoy the new features and fixes.

- **How do I contact Paltalk support?**

  If you need any help or support with Paltalk Messenger, you can contact Paltalk support by using one of these methods:

- Email: support@paltalk.com
- Phone: +1 (212) 520-7000
- Ticket: [10](https://support.p altalk.com/hc/en-us/requests/new)
- Chat: [11](https://support.paltalk.com/chat/)
- FAQ: [12](https://support.paltalk.com/hc/en-us/categories/200063950-Paltalk)
- **How do I delete my Paltalk account?**

If you want to delete your Paltalk account, you can follow these steps:

1. Sign in to your Paltalk account on your PC.
2. Click on the My Account button at the top of the window and select Account Settings.
3. Click on the Delete Account link at the bottom of the page.
4. Enter your password and click on Confirm.
5. Your Paltalk account will be deleted and you will be logged out.

Note that deleting your Paltalk account will also delete your profile, chat rooms, contacts, messages, credits, etc. You will not be able to recover them later. If you want to keep your account but stop using Paltalk Messenger, you can simply uninstall the software from your PC and sign out from other devices.
