# Pixilart: A Free Online Art Community and Pixel Art Tool

Do you love pixel art? Do you want to create your own game sprites, animated GIFs, or digital paintings? Do you want to share your art with other people and make some money from it? If you answered yes to any of these questions, then you should check out Pixilart, a free online art community and pixel art tool that lets you do all that and more.

## What is Pixilart?

Pixilart is a website that combines three features: a drawing application, a social platform, and a marketplace. Here's what each of them offers:

### A drawing application for pixel art

Pixilart has a powerful online editor that lets you create pixel art from scratch or edit existing images. You can choose from different tools, colors, layers, filters, and frames to make your art look amazing. You can also use the pixel perfect mode to draw precise pixels without any anti-aliasing. You can save your work as PNG, JPG, or GIF files, or export them as spritesheets for game development.

### A social platform for artists and gamers

Pixilart is also a place where you can share your art with other people and get feedback. You can upload your creations to the gallery, where they will be seen by thousands of users. You can also comment, like, follow, and message other artists, and join groups and contests. You can also browse through different topics, such as buildings, fantasy, landscape, Easter, etc., to find inspiration or discover new styles.

### A marketplace for digital art and merchandise

Pixilart also allows you to sell your art or buy products made by other artists. You can create your own store and upload your digital art files, such as sprites, backgrounds, icons, etc., for others to download. You can also order physical products, such as stickers, mugs, shirts, posters, etc., with your favorite pixel art designs. You can earn money from every sale or purchase you make on Pixilart.

## How to use Pixilart?

Using Pixilart is very simple and intuitive. Here are the steps you need to follow:

### Create an account or log in with Google or Facebook

To start using Pixilart, you need to create an account on the website or log in with your Google or Facebook account. This will allow you to save your work, upload it to the gallery, interact with other users, and access the marketplace. Creating an account is free and only takes a few minutes.

## **Start drawing with the online editor or upload your own images**

Once you have an account, you can start drawing with the online editor or upload your own images. To access the editor, click on the "Make Pixel Art" button on the homepage or the "Draw" button on the top menu. To upload an image, click on the "Upload" button on the top menu. You can also use the "Import" button on the editor to import an image from your computer or a URL.

## **Share your art with the community and get feedback**

When you finish your work, you can share it with the community and get feedback. To do this, click on the "Share" button on the editor or the "Submit" button on the upload page. You can also edit the title, description, and tags of your art, and choose whether you want it to be public or private. You can also enable or disable comments and ratings. Once you share your art, it will appear on the gallery, where other users can see it, like it, comment on it, and follow you. You can also view your profile, where you can see your stats, followers, following, favorites, and notifications.

## **Explore other artists' works and follow your favorites**

Pixilart is not only a place to create art, but also to explore and appreciate it. You can browse through the gallery and see what other artists are making. You can filter the gallery by popularity, date, category, or search by keywords. You can also click on any art to see more details, such as the artist's name, description, tags, comments, ratings, etc. You can also follow other artists that you like and see their latest works on your feed.

## **Shop for pixel art products or sell your own**

Pixilart also gives you the opportunity to buy or sell pixel art products. You can access the marketplace by clicking on the "Shop" button on the top menu. There you can find different categories of products, such as stickers, mugs, shirts, posters, etc., with pixel art designs. You can also search for specific products or artists. If you want to buy a product, you can add it to your cart and proceed to checkout. You can pay with PayPal or credit card. If you want to sell your own products, you can create your own store and upload your digital art files or order physical products with your designs. You can set your own prices and earn money from every sale.

## **Why choose Pixilart?**

Pixilart is a great choice for anyone who loves pixel art or wants to learn more about it. Here are some of the reasons why you should choose Pixilart:

### **It's free and easy to use**

Pixilart is completely free to use. You don't need to download or install anything. You just need a web browser and an internet connection. You can use Pixilart on any device, such as a computer, tablet, or smartphone. The interface is simple and user-friendly. You can start drawing right away or watch some tutorials to learn the basics.

### **It's fun and creative**

Pixilart is a lot of fun and allows you to express your creativity. You can create anything you want with pixel art, from cute characters to realistic landscapes. You can also animate your art and make it come to life. You can experiment with different tools, colors, filters, and frames to make your art

unique and original. You can also challenge yourself with different contests and themes.

## **It's educational and inspiring**

Pixilart is also a great way to learn more about pixel art and improve your skills. You can learn from other artists by seeing their works and techniques. You can also get feedback from the community and improve your art based on their suggestions. You can also find inspiration from different topics and styles of pixel art. You can also learn about the history and culture of pixel art and how it relates to gaming and digital media.

## **Conclusion**

Pixilart is a free online art community and pixel art tool that lets you create, share, explore, and shop for pixel art. It's a great website for anyone who loves pixel art or wants to learn more about it. It's free, easy to use, fun, creative, educational, and inspiring. Whether you want to make your own game sprites, animated GIFs, or digital paintings, or just want to have some fun and express yourself, Pixilart is the perfect website for you. So what are you waiting for? Join Pixilart today and unleash your inner pixel artist!

## **FAQs**

Here are some of the frequently asked questions about Pixilart:

### **What are the requirements to use Pixilart?**

Pixilart is a web-based application that works on any device with a modern web browser and an internet connection. You don't need to download or install anything. However, for the best performance, it is recommended to use a computer with a mouse or a tablet with a stylus.

### **How can I learn how to use Pixilart?**

Pixilart has a help section that provides tutorials, tips, and guides on how to use the online editor and other features. You can also watch some videos on the Pixilart YouTube channel or read some articles on the Pixilart blog. You can also ask questions or seek advice from other users on the forum or the chat.

### **How can I contact Pixilart?**

If you have any questions, suggestions, feedback, or issues with Pixilart, you can contact them through their email address: [support@pixilart.com](mailto:support@pixilart.com). You can also follow them on their social media accounts: Facebook, Twitter, Instagram, and Discord.

### **Is Pixilart safe for kids?**

Pixilart is a family-friendly website that is suitable for kids of all ages. However, parents should be aware that some of the content on the gallery or the marketplace may not be appropriate for younger children. Pixilart has a report system that allows users to flag any inappropriate or offensive content. Pixilart also has a privacy policy and a terms of service that explain how they collect and use personal information.

## **How can I support Pixilart?**

Pixilart is a free service that relies on donations and advertisements to keep running. If you want to support Pixilart, you can do so by donating through PayPal or Patreon, or by disabling your ad blocker. You can also support Pixilart by spreading the word about it and inviting your friends to join.
