In this article, we will review the latest version of Real Drift Car Racing Mod Apk, which offers unlimited money, all cars unlocked, and improved drift physics. We will also tell you how to download and install it on your device, and what are the pros and cons of using it.

## What is Real Drift Car Racing?

Real Drift Car Racing is a 3D racing game developed by Real Games srls, a studio specialized in creating realistic car simulation games. The game lets you experience the thrill of drifting with over 40 different cars, each with its own performance and handling. You can customize your car with various paint colors, rims, spoilers, and decals, and choose from 20 different tracks, each with its own layout and weather conditions.

## Features of Real Drift Car Racing

Some of the features that make Real Drift Car Racing stand out from other racing games are:

- Realistic drift simulation: The game uses a sophisticated physics engine that simulates the behavior of real cars on different surfaces and scenarios.
- Drift scoring system: The game rewards you for your drifting skills based on speed, angle, duration, and proximity to the track borders.
- Online leaderboard: The game allows you to compete with other players from around the world and see your ranking on the global leaderboard.
- Training mode: The game offers a training mode where you can practice your drifting skills without any pressure or limitations.
- Photo mode: The game lets you take screenshots of your best drifts and share them with your friends on social media.
