## Ultimate Capcom Fighting Collection PS2 ISO Download: How to Play Classic Capcom Fighting Games on Your PC

If you are a fan of classic Capcom fighting games, you might be interested in Ultimate Capcom Fighting Collection, a compilation of 10 arcade fighting games by Capcom that was released for PlayStation 2 in 2022. This collection includes all five Darkstalkers games, as well as other popular titles such as Cyberbots, Red Earth, and Hyper Street Fighter II. In this article, we will show you how to download Ultimate Capcom Fighting Collection PS2 ISO and play it on your PC using a PS2 emulator.

### What is Ultimate Capcom Fighting Collection?

Ultimate Capcom Fighting Collection is a fighting game compilation by Capcom that celebrates the Street Fighter series' 35th anniversary. It contains arcade versions of 10 fighting games originally released by Capcom between 1994 and 2003, including all five Darkstalkers games. It was released on June 24, 2022 on Nintendo Switch, PlayStation 4, Windows, and Xbox One.

### A compilation of 10 arcade fighting games by Capcom

The collection features online play with rollback netcode, training and spectator modes, save states, concept art, design documents, and a music player. It also includes a special physical edition that comes with Street Fighter 30th Anniversary Collection exclusively in Japan. Pre-orders and early purchases of the collection include digital codes of all new music remixes, original and exclusive illustrations, and Three Wonders game for Capcom Arcade 2nd Stadium.

### The games included in the collection

The games included in the collection are as follows:
