NBA 2K20 Android My Career Mode: A Review

If you are a fan of basketball games, you might have heard of **NBA 2K20**, the latest installment in the popular NBA 2K series. NBA 2K20 is a basketball simulation game that lets you experience the thrill and excitement of the NBA. You can play with your favorite teams and players, compete in various game modes, and enjoy realistic graphics and gameplay.

One of the most popular game modes in NBA 2K20 is **My Career mode**, where you can create your own custom player and live out your NBA dream. In this mode, you can customize your player's appearance, attributes, skills, and badges, and play through a realistic career path that includes college games, NBA Combine, Summer League, NBA Draft, and regular season. You can also interact with celebrities, fans, coaches, teammates, and rivals, and make choices that affect your story and reputation.

In this article, we will review NBA 2K20 Android My Career mode and give you some tips and tricks on how to enjoy it to the fullest. We will also show you how to download and install NBA 2K20 on your Android device, how to save and transfer your My Career file on Android, and how to optimize your My Career experience on Android.

How to Download and Install NBA 2K20 on Android

NBA 2K20 is available for Android devices on Google Play Store. To download and install NBA 2K20 on your Android device, follow these steps:

1. Open Google Play Store on your device and search for NBA 2K20.
2. Select the game from the search results and tap on Install.
3. Wait for the game to download and install on your device. The game requires about 3 GB of free space on your device.
4. Once the game is installed, tap on Open to launch it.
5. Follow the on-screen instructions to set up the game. You will need an internet connection to download additional data and updates.

Congratulations! You have successfully downloaded and installed NBA 2K20 on your Android device. You can now start playing the game and enjoy its features.

How to Save and Transfer Your My Career File on Android

One of the most important things you need to do in NBA 2K20 Android My Career mode is to save your progress regularly. This will prevent you from losing your data in case of any issues or errors. You might also want to transfer your My Career file to another device if you want to play on multiple devices or switch to a new device.

There are two ways you can save your My Career file on Android: using cloud save or using local storage. Cloud save is a feature that allows you to save your file online and access it from any device. Local storage is a feature that allows you to save your file on your device's internal or external memory. Here are the steps to use each method:

How to Save Your My Career File Using Cloud Save

- Make sure you have a Google account and you are signed in to it on your device.
- Launch NBA 2K20 on your device and go to My Career mode.
- Select the file you want to save and tap on Options.
- Select Cloud Save and confirm your choice.
- Wait for the game to upload your file to the cloud. You will see a message that says "Cloud Save Successful".

You have now saved your My Career file using cloud save. You can access it from any device by signing in to the same Google account and selecting Cloud Load from the Options menu.

How to Save Your My Career File Using Local Storage

- Launch NBA 2K20 on your device and go to My Career mode.
- Select the file you want to save and tap on Options.
- Select Local Save and confirm your choice.
- Wait for the game to save your file on your device. You will see a message that says "Local Save Successful".

You have now saved your My Career file using local storage. You can access it from the same device by selecting Local Load from the Options menu.

How to Transfer Your My Career File Using Google Drive

- Make sure you have Google Drive app installed on both devices and you are signed in to the same Google account on both devices.
- On the device that has your My Career file, launch NBA 2K20 and go to My Career mode.
- Select the file you want to transfer and tap on Options.
- Select Share and choose Google Drive as the destination.
- Wait for the game to upload your file to Google Drive. You will see a message that says "Share Successful".
- On the device that you want to transfer your file to, launch Google Drive app and locate your file. It should have a name like "NBA 2K20 MyCareer File".
- Tap on the file and select Download. Wait for the file to download on your device.
- Launch NBA 2K20 on your device and go to My Career mode.
- Select New Game and choose Import File from the Options menu.
- Select the file you downloaded from Google Drive and confirm your choice.

You have now transferred your My Career file using Google Drive. You can play with your file on the new device and enjoy your progress.

How to Transfer Your My Career File Using USB Cable

- Make sure you have a USB cable that is compatible with both devices and a computer with a USB port.
- On the device that has your My Career file, launch NBA 2K20 and go to My Career mode.
- Select the file you want to transfer and tap on Options.
- Select Export File and choose USB as the destination.
- Connect your device to the computer using the USB cable. Wait for the computer to recognize your device.
- On the computer, open File Explorer and locate your device. It should have a name like

"Android Device".

- Open the folder named "NBA 2K20" and find the file named "MyCareerFile". Copy or cut this file and paste it somewhere on your computer, such as Desktop or Documents.
- Eject your device from the computer and disconnect the USB cable.
- On the device that you want to transfer your file to, connect it to the computer using the USB cable. Wait for the computer to recognize your device.
- On the computer, open File Explorer and locate your device. It should have a name like "Android Device".
- Open the folder named "NBA 2K20" and paste the file named "MyCareerFile" that you copied or cut from the other device.
- Eject your device from the computer and disconnect the USB cable.
- Launch NBA 2K20 on your device and go to My Career mode.
- Select New Game and choose Import File from the Options menu.
- Select the file you copied or cut from the other device and confirm your choice.

You have now transferred your My Career file using USB cable. You can play with your file on the new device and enjoy your progress.

How to Transfer Your My Career File Using Bluetooth

- Make sure you have Bluetooth enabled on both devices and they are paired with each other.
- On the device that has your My Career file, launch NBA 2K20 and go to My Career mode.
- Select the file you want to transfer and tap on Options.
- Select Share and choose Bluetooth as the destination.
- Select the device that you want to transfer your file to from the list of paired devices.
- Wait for the game to send your file to the other device. You will see a message that says "Share Successful".
- On the device that you want to transfer your file to, launch NBA 2K20 and go to My Career mode.
- Select New Game and choose Import File from the Options menu.
- Select the file you received from Bluetooth and confirm your choice.

You have now transferred your My Career file using Bluetooth. You can play with your file on the new device and enjoy your progress.

How to Optimize Your My Career Experience on Android

NBA 2K20 Android My Career mode is a fun and immersive way to live out your NBA fantasy. However, there are some things you can do to make it even better. Here are some tips and tricks on how to optimize your My Career experience on Android:

How to Choose the Best Build for Your My Career Player

The first thing you need to do in My Career mode is to create your own custom player. You can choose your player's name, appearance, position, height, weight, wingspan, and archetype. Your archetype determines your player's primary and secondary skills, such as shooting, playmaking, defending, rebounding, etc. Your skills affect your attributes, such as speed, strength, agility, etc. Your attributes affect your performance on the court, such as scoring, passing, defending, etc.

To choose the best build for your My Career player, you need to consider several factors, such as:

- Your preferred position: point guard, shooting guard, small forward, power forward, or center.

Each position has its own advantages and disadvantages, such as speed, size, versatility, etc.

- Your preferred playstyle: do you like to score a lot of points, create plays for your teammates, lock down your opponents, dominate the boards, or do a bit of everything? Each playstyle has its own strengths and weaknesses, such as shooting range, ball handling, defense, rebounding, etc.
- Your strengths and weaknesses: what are you good at and what are you bad at? Do you want to focus on improving your strengths or compensating for your weaknesses? Each strength and weakness has its own impact on your game, such as accuracy, consistency, efficiency, etc.

To choose the best build for your My Career player, you need to balance these factors and find a combination that suits you best. You can use online tools and guides to help you with this process. For example, you can use [this] website to compare different archetypes and see their attributes, badges, and ratings. You can also use [this] website to see some popular builds and their pros and cons.

How to Use the Jump Shot Creator to Customize Your Shooting Animation

Another way to optimize your My Career experience on Android is to use the Jump Shot Creator, a feature that lets you mix and match different shooting animations to create your own custom jump shot. This can help you improve your shooting accuracy, timing, and style. To use the Jump Shot Creator, you need to unlock it first by attending the Team Practices before the games. After enough of these drills, you will be able to access the Jump Shot Creator from the MyPlayer Appearance menu.

Once you have unlocked the Jump Shot Creator, you can follow these steps to create your own custom jump shot:

1. Go to the MyPlayer Appearance menu and select Jump Shot Creator.
2. Select an empty slot and choose Create Custom Jump Shot.
3. Select a base animation for your jump shot. This determines your jumping motion and speed. You can choose from over 300 different base animations, including those of famous NBA players.
4. Select a release animation for your jump shot. This determines your wrist and arm motion when releasing the ball. You can choose from over 300 different release animations, including those of famous NBA players.
5. Select a second release animation for your jump shot. This determines your other hand's motion when releasing the ball. You can choose from over 300 different release animations, including those of famous NBA players.
6. Adjust the blending and speed of your jump shot. This determines how much each release animation influences your jump shot and how fast your jump shot is. You can use the sliders to adjust these values.
7. Test your jump shot in the practice court. You can see how your jump shot looks and feels, and how accurate it is. You can also change the difficulty level and the defense settings to test your jump shot in different scenarios.
8. Save your jump shot if you are satisfied with it. You can also rename it or delete it if you want.

You have now created your own custom jump shot using the Jump Shot Creator. You can use it in My Career mode by selecting it from the MyPlayer Appearance menu. You can also create more custom jump shots and switch between them as you like.

How to Earn More VC and Upgrade Your Player Faster

VC stands for Virtual Currency, which is the main currency in NBA 2K20. You can use VC to upgrade your MyPlayer attributes, buy new clothes and accessories, purchase MyTeam packs, and more. Therefore, earning more VC is essential for improving your My Career experience on Android. Here are some ways to earn more VC in NBA 2K20:

- Play more games in My Career mode. You will earn VC based on your performance, stats, difficulty level, and teammate grade. You will also earn VC from endorsements, contracts, incentives, and events.
- Play online matches in other modes, such as MyTeam, Play Now Online, The Rec, Pro-Am, etc. You will earn VC based on your performance and results.
- Use the MyNBA2K20 app on your mobile device. You can earn VC by logging in daily, completing tasks, playing mini-games, etc.
- Watch 2KTV episodes in-game or on YouTube. You can earn VC by answering trivia questions correctly during the episodes.
- Participate in special events and promotions in-game or on social media. You can earn VC by joining contests, giveaways, codes, etc.

By earning more VC, you can upgrade your player faster and make him more competitive in My Career mode. To upgrade your player, you need to follow these steps:

1. Go to the Progression menu and select Attributes.
2. Select the attribute category you want to upgrade, such as Finishing, Shooting, Playmaking, or Defense/Rebounding.
3. Select the specific attribute you want to upgrade, such as Close Shot, Mid-Range Shot, Ball Handle, or Steal.
4. Spend VC to increase the attribute rating. The higher the rating, the more VC it costs.
5. Confirm your upgrade and see how it affects your overall rating and potential.

You have now upgraded your player using VC. You can also unlock and upgrade badges using skill points that you earn from playing games and doing drills. Badges are special abilities that enhance your player's skills in various ways.

How to Improve Your Performance and Skills in My Career Mode

Finally, to optimize your My Career experience on Android, you need to improve your performance and skills in My Career mode. This will help you win more games, earn more VC, increase your fan base, and advance your career. Here are some ways to improve your performance and skills in My Career mode:

- Practice drills in the Team Practice Facility. You can improve your attributes, badges, and chemistry by doing various drills that focus on different aspects of the game, such as shooting, dribbling, passing, defense, etc.
- Play smart on the court. You can improve your teammate grade and stats by making good decisions on the court, such as taking good shots, passing to open teammates, setting screens, playing defense, etc.
- Use tips and tricks from online sources. You can learn from other players and experts by watching videos, reading articles, or joining forums that offer tips and tricks on how to play better in My Career mode.

By improving your performance and skills in My Career mode, you can optimize your My Career

experience on Android and have more fun and satisfaction.

Conclusion

NBA 2K20 Android My Career mode is a great way to create your own custom player and live out your NBA dream. You can customize your player's appearance, attributes, skills, and badges, and play through a realistic career path that includes college games, NBA Combine, Summer League, NBA Draft, and regular season. You can also interact with celebrities, fans, coaches, teammates, and rivals, and make choices that affect your story and reputation.

In this article, we reviewed NBA 2K20 Android My Career mode and gave you some tips and tricks on how to enjoy it to the fullest. We showed you how to download and install NBA 2K20 on your Android device, how to save and transfer your My Career file on Android, how to choose the best build for your My Career player, how to use the Jump Shot Creator to customize your shooting animation, how to earn more VC and upgrade your player faster, and how to improve your performance and skills in My Career mode.

FAQs

Here are some frequently asked questions about NBA 2K20 Android My Career mode:

Q: How do I change my difficulty level in My Career mode?

A: You can change your difficulty level in My Career mode by going to the Settings menu and selecting Gameplay Difficulty. You can choose from five levels: Rookie, Pro, All-Star, Superstar, or Hall of Fame. The higher the difficulty level, the more challenging the game will be, but you will also earn more VC per game.

Q: How do I change my camera angle in My Career mode?

A: You can change your camera angle in My Career mode by going to the Settings menu and selecting Camera. You can choose from several options: 2K (default), Broadcast (TV-like), Player Lock (follows your player), Turbo (zooms in when sprinting), etc. You can also adjust the zoom and height of the camera.

Q: How do I get more fans in My Career mode?

A: You can get more fans in My Career mode by performing well on the court, such as scoring points, making assists, getting rebounds, stealing the ball, blocking shots, etc. You can also get more fans by interacting with celebrities, fans, coaches, teammates, and rivals, and making choices that affect your story and reputation. The more fans you have, the more endorsements, contracts, incentives, and events you will get.

Q: How do I get more badges in My Career mode?

A: You can get more badges in My Career mode by earning skill points from playing games and

doing drills. Skill points are divided into four categories: Finishing, Shooting, Playmaking, and Defense/Rebounding. Each category has its own badges that enhance your skills in that area. To unlock and upgrade badges, you need to spend skill points on the corresponding category. The higher the badge level, the more skill points it costs.

Q: How do I change my team in My Career mode?

A: You can change your team in My Career mode by requesting a trade or signing with a new team in free agency. To request a trade, you need to have played at least 10 games with your current team and have a high enough influence level. You can request a trade by going to the My Minutes menu and selecting Trade Request. You can choose up to three teams that you want to be traded to. To sign with a new team in free agency, you need to have completed at least one season with your current team and have an expiring contract. You can sign with a new team by going to the Free Agency menu and selecting Negotiate Contract. You can choose from any team that offers you a contract.
