Totally Reliable Delivery APK: A Fun and Chaotic Delivery Simulator

Have you ever wondered what it would be like to be a delivery person in a world where anything can go wrong? If so, you might want to try out **Totally Reliable Delivery APK**, a game that lets you deliver packages in a sandbox world with ragdoll physics and hilarious situations. In this article, we will tell you everything you need to know about this game, including how to download and install it, how to play it, what are its features, and what are its pros and cons.

What is Totally Reliable Delivery APK?

Totally Reliable Delivery APK is an Android game that was developed by tinyBuild, a studio known for making quirky and fun games. The game was released in April 2020 and has since gained over 10 million downloads on Google Play. The game is also available for iOS, Windows, Mac, Linux, PlayStation 4, Xbox One, and Nintendo Switch.

A game about delivering packages in a sandbox world

The main premise of the game is simple: you are a delivery person who has to deliver packages to various locations in a sandbox world. You can choose from different types of packages, such as fragile, explosive, or heavy ones. You can also choose from different types of delivery jobs, such as timed, distance, or special ones. The game does not have a fixed storyline or objectives; you can play as you like and explore the world at your own pace.

A game with ragdoll physics and hilarious situations

One of the most distinctive features of the game is its ragdoll physics system, which makes your character behave like a floppy doll. This means that you can easily lose control of your movements, fall over, get knocked out, or fly into the air. The game also has a lot of random events and obstacles that can make your delivery more challenging or funny. For example, you might encounter traffic

jams, animals, explosions, tornadoes, or other players who can help or hinder you.

A game with single and multiplayer modes

The game can be played solo or with up to three other players online. You can join a public server or create a private one with your friends. You can also chat with other players using voice or text messages. The multiplayer mode adds more fun and chaos to the game, as you can cooperate or compete with other players in delivering packages.

How to Download and Install Totally Reliable Delivery APK?

If you want to play Totally Reliable Delivery APK on your Android device, you need to follow these steps:

Download the APK file from a trusted source

The first step is to download the APK file of the game from a trusted source. You can find the latest version of the game on the official website or on other reputable APK websites. Make sure that you download the file from a secure and virus-free site. The file size is about 300 MB, so you might need a stable and fast internet connection.

Enable unknown sources on your device

The next step is to enable unknown sources on your device. This will allow you to install apps that are not from the Google Play Store. To do this, go to your device settings and look for the security or privacy option. Then, find the unknown sources option and toggle it on. You might see a warning message, but you can ignore it if you trust the source of the APK file.

Install the APK file and launch the game

The final step is to install the APK file and launch the game. To do this, locate the downloaded file on your device and tap on it. You might see a pop-up window asking for permissions, such as access to storage, network, and microphone. Grant them if you want to enjoy the full features of the game. Then, wait for the installation process to finish and tap on the open button. You can now enjoy playing Totally Reliable Delivery APK on your device.

How to Play Totally Reliable Delivery APK?

Now that you have installed the game, you might be wondering how to play it. Here are some basic tips and instructions to help you get started:

Choose your character and customize your appearance

When you launch the game, you will see a character selection screen where you can choose your avatar and customize your appearance. You can change your hair, skin, clothes, accessories, and more. You can also unlock more items as you play the game. You can also name your character and choose your preferred language.

Find a delivery job and load the package onto your vehicle

After choosing your character, you will enter the sandbox world where you can find delivery jobs.

You can look for blue markers on the map that indicate delivery locations. You can also use your phone to see available jobs and accept them. Once you find a job, you need to load the package onto your vehicle. You can use different types of vehicles, such as cars, trucks, bikes, planes, boats, and more. You can also use tools and machines, such as cranes, forklifts, catapults, and more.

Drive, fly, or sail to the destination and deliver the package

Once you have loaded the package onto your vehicle, you need to drive, fly, or sail to the destination and deliver it. You can use the map or follow the arrows to find your way. You need to be careful not to damage or lose your package along the way, as this will affect your rating and reward. You also need to avoid obstacles, accidents, and other players who might try to stop you or steal your package.

Avoid obstacles, accidents, and other players along the way

The game is full of surprises and challenges that can make your delivery more difficult or fun. For example, you might encounter traffic jams, animals, explosions, tornadoes, or other players who can help or hinder you. The game also has a dynamic weather system and a day-night cycle that can affect your visibility and driving conditions. The game is designed to be humorous and unpredictable, so be prepared for anything.
