Use elemental advantages in battles

One of the most important aspects of Monster of Glory APK is the elemental system. Each monster has an element that determines its strengths and weaknesses against other elements. There are six elements in the game: fire, water, grass, electric, psychic, and dark. Each element has a different color and symbol, and you can see them on the monster cards and the battle screen. The elemental system follows a simple rule: fire beats grass, grass beats water, water beats fire, electric beats water, psychic beats dark, and dark beats psychic. You can also see a diagram of the elemental relationships on the top right corner of the battle screen. You should use this rule to your advantage and choose monsters that have an elemental advantage over your enemies. This will make your attacks more effective and reduce the damage you receive. You should also avoid using monsters that have an elemental disadvantage against your enemies, as this will make your attacks less effective and increase the damage you receive.

You can also challenge your friends to friendly battles, or trade monsters with them. By joining a guild, you can also access exclusive rewards and benefits, such as guild chests, guild shop, guild skills, and guild missions.
