Tips and tricks for playing Naruto Shippuden Ultimate Ninja Storm Revolution

If you want to master the game and become a ninja legend, here are some tips and tricks that might help you:

Choose your team type wisely

Before you start a battle, you have to choose your team type from three options: Ultimate Jutsu Type,

Awakening Type, or Drive Type. Each type has its own advantages and disadvantages, so you have to choose according to your preference and strategy. For example, Ultimate Jutsu Type allows you to perform powerful ultimate jutsus that can deal massive damage to your enemies, but it also consumes a lot of chakra. Awakening Type allows you to enter an awakened state that enhances your abilities and stats, but it also makes you more vulnerable to guard-breaks. Drive Type allows you to use your support ninjas more effectively, but it also limits your ultimate jutsu options.

Master the guard-break and counterattack mechanics

The game features a guard-break and counterattack system that adds more depth and challenge to the combat. You can break your opponent's guard by using a charged attack or a guard-break item, which will leave them open for a combo or an ultimate jutsu. You can also counterattack your opponent's attack by timing your guard button correctly, which will knock them back and stun them for a brief moment. Mastering these mechanics will give you an edge in battle and help you turn the tide of the fight.

Use the support drive and combo ultimate jutsu

If you choose the Drive Type as your team type, you can use the support drive feature to enhance your support ninjas' abilities. There are three levels of support drive: Level 1 allows your support ninjas to perform more actions; Level 2 allows them to block attacks for you; Level 3 allows them to perform a combo ultimate jutsu with you. A combo ultimate jutsu is a special attack that involves all three members of your team, which can deal devastating damage to your enemies. To activate a combo ultimate jutsu, you have to fill up your storm gauge by attacking or defending, then press the ultimate jutsu button when your support ninjas are ready.

Collect battle orbs and items in the tournament mode

In the Ninja World Tournament mode, you have to collect battle orbs that drop from your opponents or from the environment to win. The more battle orbs you have, the higher your rank will be at the end of the round. You can also collect items that can help you in battle, such as health potions, chakra pills, guard-break items, and more. You can find these items in crates, barrels, or other objects that you can break. You can also buy them from shops or get them as rewards for completing missions. Be sure to use these items wisely and strategically to gain an advantage in the tournament.

Conclusion

Naruto Shippuden Ultimate Ninja Storm Revolution is a game that will satisfy any Naruto fan or fighting game lover. It has amazing graphics and animations, a huge roster of characters and support ninjas, a new exclusive character and story mode, a fun and challenging tournament mode, and an exciting online mode. It is also easy to download and install on your Android device with the help of APK and OBB files.
