Tips and Tricks for Playing Insaniquarium Deluxe

Insaniquarium Deluxe is a game that requires strategy, timing, and quick thinking. You have to balance feeding your fish, collecting money, buying upgrades, and fighting aliens. Here are some tips and tricks that can help you master the game and have more fun.

- Choose your pets wisely. Each pet has a unique ability that can help you in different ways. Some pets are more useful than others depending on the tank and the level of difficulty. For example, Stinky the Snail can collect money for you, which is helpful in the early tanks when you have fewer fish. However, he becomes less effective in the later tanks when you have more fish and money to collect. In that case, you might want to replace him with a pet that can help you feed your fish or attack aliens.
- Upgrade your food quality and quantity. One of the most important things to do in Insaniquarium Deluxe is to keep your fish fed and happy. If you neglect them, they will starve and die, or become unhappy and drop less money. To prevent this, you should upgrade your food quality and quantity as soon as possible. This will make your fish grow faster and drop more money. It will also reduce the amount of food you need to feed them.
- Know your aliens and how to defeat them. There are nine different types of aliens that will invade your tank and try to eat your fish. Each alien has a different appearance, behavior, and weakness. You should learn how to recognize them and how to fight them effectively. For example, Sylvester is a red alien that eats one fish at a time. He is vulnerable to any weapon, but he can dodge your shots if you aim directly at him. A better strategy is to aim slightly ahead of him or use a pet that can stun him.
- Use the sandbox mode to experiment and have fun. Insaniquarium Deluxe has a hidden sandbox mode that you can unlock by entering a cheat code at the main menu. In this mode, you can play with unlimited money and shells, spawn any fish or alien you want, and use any pet combination you like. You can also change the background and music of your tank. This mode is great for testing different strategies, discovering secrets, or just having fun.

These are some of the tips and tricks that can help you play Insaniquarium Deluxe better and enjoy it more. If you have any other tips or tricks that you want to share, feel free to leave a comment below.
