What is Clicker Heroes?

Clicker Heroes is a popular idle game developed by Playsaurus, a US-based game studio. It was released in 2014 for browsers, and later ported to various platforms, including Android, iOS, Windows, Mac, Linux, PlayStation 4, and Xbox One. The game has received positive reviews from critics and players alike, and has over 10 million downloads on Google Play Store.

The gameplay of Clicker Heroes

The gameplay of Clicker Heroes is very simple and straightforward. You start by tapping on the screen to attack monsters and earn gold. You can use the gold to hire and level up heroes, who will help you fight the monsters automatically. Each hero has a unique ability that can be unlocked and upgraded as you progress. As you defeat more monsters, you will unlock new zones to explore, each with different themes and enemies. You will also encounter bosses every five zones, who are tougher than regular monsters and have a time limit to defeat them. If you manage to beat a boss, you will advance to the next zone. If not, you will have to retry the same zone until you succeed.

The game also has a prestige system called Ascension, which allows you to reset your progress and start over with some bonuses. You can ascend once you reach zone 100 for the first time, and then every time you collect enough Hero Souls. Hero Souls are a special currency that can be used to buy Ancients, who are powerful beings that grant you various perks and bonuses. You can also use Hero Souls to increase your damage multiplier.

How to level up your heroes efficiently

One of the most important aspects of Clicker Heroes is leveling up your heroes, as they are the main source of your damage and income. However, you need to be smart about how you spend your gold and which heroes you level up. Here are some tips for leveling up your heroes efficiently:

- Always level up your newest hero first, as they have the highest damage potential and cost-effectiveness.
- Level up your heroes in multiples of 25, as they get a 4x damage boost every 25 levels, and a 10x damage boost every 1000 levels.
- Buy all the available upgrades for your heroes, as they can unlock new abilities or increase their damage, gold income, or critical chance.

- Use the x10, x25, x100, or MAX buttons to level up your heroes faster and easier.
- Use the scientific notation option to see your numbers in a more compact and readable way.

How to join and create clans

Another feature of Clicker Heroes is the clan system, which allows you to join or create a group of players and chat with them. Clans can also help you fight against immortals, which are powerful enemies that appear every day and give you rewards if you defeat them. Here are some tips for joining and creating clans:

- To join a clan, you need to go to the clan tab and enter a clan name or ID in the search box. You can also browse through the list of available clans and request to join one that suits your preferences.
- To create a clan, you need to go to the clan tab and tap on the create button. You can then choose a name, an ID, a logo, and a description for your clan. You can also set a minimum immortal damage requirement for joining your clan, or make it invite-only.
- To chat with your clan members, you need to go to the clan tab and tap on the chat button. You can then type your message and send it to everyone in your clan. You can also use emojis, stickers, or gifs to express yourself better.

How to defeat the immortals

The immortals are special enemies that appear every day in the clan tab. They have a huge amount of health and a time limit to defeat them. If you manage to defeat an immortal, you and your clan members will receive Hero Souls as a reward. Here are some tips for defeating the immortals:

- To fight an immortal, you need to go to the clan tab and tap on the fight button when it appears. You will then enter a battle screen where you can tap on the immortal to deal damage to it.
- You can only fight an immortal once per day, unless you spend rubies to buy extra attempts. You can also use rubies to buy damage boosts or time extensions for the fight.
- Your damage to the immortal is based on your immortal damage, which is calculated from your Hero Souls and Ancients. You can increase your immortal damage by ascending, transcending, or buying more Ancients.
- You can also cooperate with your clan members to fight the immortal, as the total damage of your clan is counted towards the defeat. You can see the damage of each clan member in the clan tab.
- The difficulty and reward of the immortal will increase every time you defeat it, and decrease every time you fail. You can see the level, health, and reward of the immortal in the clan tab.
